Prints must be mounted on 50×40 cm Ice White Mount Board.

The print must be mounted to the Mount Board and have no additional stiffening card attached to the rear; any additional weight stops the Velcro pads from having enough adhesion to stay mounted to the display boards.

In Word, type out your picture title (in UPPER CASE) and underneath your name (in Lower Case) in Arial, Bold, size **12** font, centre text. If you have a personal photography website this can also be included as Arial, Bold, size **10** font, centre text, underlined and in blue. Label width 0.75 inches Print and cut to size. Fold around the bottom right-hand corner of the mountboard at 45 degrees to the corner and attach each end on the reverse side with Sellotape.
